

Non-Standard Ammunition and Weapons Systems

Worldwide Armament Supply Programs

ATK's Worldwide Armament Supply Programs (WASP) unit supplies non-standard (non-NATO) small, medium and large caliber ammunition, grenades, aviation rockets and weapon systems to the U.S. government and its allies. WASP has the critical planning, sourcing, logistics, quality and security expertise to insure delivery of a variety of quality-assured, non-standard armament systems for global training and tactical needs.

Efficient integration of diverse products, suppliers and processes across varied geographic locations is another reason ATK is a leader in the global defense systems marketplace.
