Subject: U.S. Export Control Requirements

To the attention of ATK Suppliers,

Alliant Techsystems (ATK) is an Aerospace and Defense Contractor. As a supplier to ATK, it is likely you may be required to handle technical data as defined by the International Traffic in Arms Regulations (ITAR) in 22 CFR Sections 120-130. We want to ensure that you are aware of the requirements associated with these regulations. Compliance with them is key to our successful partnering.

Please be aware that technical data (documentation, software, drawings, specifications, etc.) or hardware provided to you, is subject to the export control laws of the United States Government. Transfer of this technical data or hardware by any means to a non-U.S. Person, whether in the United States or another country, without prior written approval from the U.S. Government is strictly prohibited. Technical data and U.S. Person are defined in ITAR Sections 120.10 and 120.15 respectively.

Additionally, in accordance with the Arms Export Control Act and pursuant to ITAR Section 122.1, "Any person who engages in the United States in the business of either manufacturing or exporting of defense articles or furnishing of defense services is required to register with the U.S. Department of State Directorate of Defense Trade Controls (DDTC). Manufacturers who do not engage in exporting must nevertheless register." Information with regard to the registration with the DDTC is available at <http://www.pmdtc.org/registration.htm>.

We are asking all suppliers to complete and sign the attached "Domestic Supplier Export Control and DDTC Registration Certification" and return to the undersigned. If you have any questions, please do not hesitate to contact the ATK representative identified on the purchase order negotiated with your company.

Sincerely,

L. H. (Larry) Smith  
Purchasing Manager  
Alliant Techsystems, Inc.,  
Lake City Ammunition Division
